The Basics

Map Spaces *(2)*

Spaces come in four types:

Key: fortified space represented by square. Most influencial and powerful spaces
Keys with double border are **Capitals**

Electorate: fortified space represented by hexagon. Home city of electoral princes who choose the Holy Roman Emperor

Fortress: fortified space represented by eight pointed star. No economic value

Unfortified Space: represented by circle

- Fortified spaces must be sieged to be taken
- Fortified spaces may serve as winter quarters

Spaces starting control:

Home Spaces: color coded by power

Independent Spaces: colored grey

Political Control *(2.2)*

Game elements can be in three states:

Friendly: controlled by active power or ally

Enemy: controlled by power at war

Independent: anything not controlled by a major or minor power

Control Markers *(2.4)*

Display political control and religous influence

Square Markers: denote Keys and are placed/ taken from a player's power mat

Hexagonal Markers: used for status of Electorates, Fortresses, Keys captured by Protestants, and Unfortified Spaces.

Religous Influence *(2.3)* and Language Zones *(2.5)*

See Religious Rules Reference

Other Map Elements *(2.5)*

Pass - connection denoted by dashed line

Sea Zone - labeled in blue italic font. Only naval leaders and units may occupy.

Port - A city is a port if it has an anchor symbol. Naval leaders and units may move into a port

Cards *(6)*

There are 5 types of cards:

Home Cards: Unique card that each power has every turn. You may not pass until your Home Card is played. It may never be randomly drawn

Mandatory Event Cards: Name of card in red. Must be played before passing and may not be discarded. Event takes place first, then player receives 2 CP.

Response Cards: Name of card in blue. Can be played during any player's impulse or for CP value during your turn

Combat Cards: Name of card in black. May be played during combat or for CP value

Event Cards: All other cards are event cards. May be played for event or for CP value.

Rulers *(3.3)*

Starting ruler is printed on power mat. Ruler may change through Mandatory Events.

Administrative Rating: may save cards

Card Bonus: extra cards during draw

Military Units *(5)*

Leaders *(5.1)*

Placed in plastic stands to move on map

Army Leader
Battle Rating: top number
Command Rating: number in yellow box

Naval Leader
Battle Rating: top number
Piracy Rating: smaller number after a P

Land Units *(5.2)*
Represented by circle with number denoting how many Units in stack.

Regulars: Multi colored symbol

Mercenaries: Solid black symbol. Cheaper to construct, but may desert.

Cavalry: Only built by Ottomans. Strong at intercepting and avoiding battle, ineffective at siege operations

Naval Units *(5.3)*

Squadron: each squadron has an attack and hit point value of 2

Corsair: Built by Ottomans, can be used for Piracy. Each corsair has attack and hit point value of 1.

Formations *(5.1)*

A Formation is a stack of units and leaders in a space. The maxium size is dependent on the Command Rating of the leaders present.

- None: 4 max
- 1 Leader: Command Rating
- 2 + Leaders: Sum of 2 highest Command

Lines of Communication *(12.1)*

A power has LOC if can trace path of spaces and sea zones to a friendly fortified space. All spaces must be friendly controlled, free of enemy units, free of unrest.

LOC is required for assaulting a fortified space and controlling unfortified spaces.

Unrest *(12.4)*

Effects of unrest markers:

- Units may not spring deploy, retreat, or avoid battle into or through
- No LOC may be traced through
- No units may be constructed
- Ignored during Reformation attempts
- Not considered Protestant for VP
- Keys in unrest provide no VP or card draws.
- Fortresses in unrest do not roll against piracy

Alliances *(9.2)*

Alliances are agreements between major powers to cooperate for 1 turn:

- Spaces controlled by an ally become friendly
- A stack of units may defend together (but not attack). Split losses equally, die to break tie
- May loan naval squadrons and naval leaders to ally if path of sea zones exist

Restrictions:

- May not be allied if at war
- Papacy and Ottomans may not ally
- Papacy may not ally with Hapsburgs if they granted divorce to Henry VIII this turn
- Protestants may not receive naval units

Minor Powers *(22)*

Minor powers can be either active or inactive:

Inactive: Units do not move and will always try to withdraw into fortifications.

Active: Units function as units of the controling major power. Keys become available for winter quarters. May raise new regular troops and naval squadrons.

Activating Minor Powers *(22.2)*

- If France or Papacy intervene after a DOW
- If Hapsburgs intervene in Hungary after they are defeated by the Ottomans (22.5)
- France activates Scotland with *Auld Alliance*
- Papacy plays *Venetian Alliance*
- A major power plays *Diplomatic Marriage*
- French, Hapsburgs, or Papacy play *Andrea Doria* to activate Genoa

a. Place Allied marker

b. Declarations of War
A power at war with minor power may declare war on activating power for no cost

c. Place Square Control markers

d. Place Hexagonal Control markers

e. Remove At War markers

Deactivating Minor Powers: *(22.4)*

- If England or France deactivates Scotland with *Auld Alliance*
- If Ottomans or Papacy deactivates Venice with *Venetian Alliance*
- England, France, Hapsburgs or Papacy play *Diplomatic Marriage* to deactivate Genoa, Scotland, or Venice
- The French, Hapsburgs, and Papacy may play *Andrea Doria* to deactive Genoa

a. Remove Allied marker

b. Remove all control markers

c. Move displaced land units

To nearest friendly fortified space

d. Move displaced naval units

To nearest friendly port

e. Minor power's land units return

To nearest fortified home space

f. Minor power's naval units return

To nearest home port

Defeat of Hungary-Bohemia *(22.5)*

Ottomans defeat HB if they control 1 HB Key and 4 or fewer units left; or if HB allies with Hapsburgs and Ottomans have 2 HB Keys

- Hapsburgs must intervene at no cost. HB becomes ally and Ottomans at war.
- Ottomans earn 2 VP War Winner chitΔ¨≈¶90•
- HB spaces with Ottoman units are controlled
- HB units under siege are eliminated

Independents *(22.6)*

Independent spaces can be entered by powers at any time. Independent units will only defend.

Phases

Impulse Order

Ottoman, Hapsburgs, England, France, Papacy, Protestant

Sequence of Play

1. Luther's 95 Theses *(Turn 1 only)*
2. Card Draw
3. Diplomacy *(Limited on Turn 1)*
4. Diet of Worms *(Turn 1 only)*
5. Spring Deployment
6. Action Phase
7. Winter
8. New World
9. Victory Determination

1. Luther's 95 Theses *(Turn 1 Only) (18.1)*

a. Protestant player plays the card from hand

b. Add the Luther chit to Wittenberg

c. Wittenberg converts to Protestant

d. Place 2 regular units from electorate display

e. Protestant power makes 5 reformation attempts in German language zone, rolling 1 extra die in each attempt *(18.3)*

f. Remove card from play, do not gain 2 CP

2. Card Draw *(8.2)*

Add leaders, debaters, reformers *(8.2)*
- Maurice of Saxony - Turn 6
- Convert spaces with new reformers

Add new cards to deck and shuffle *(In Turn 3 and later)*

Roll for New World Riches *(20.4)*

Roll two dice for each colony or conquest. +1 for colonies with plantations. Consult chart.

If Hapsburgs receive card and there are raiders, Raider rolls 1 die to try and steal card. Order: French, English, Protestant. Consult chart.

Deal Cards *(6.2)*
Draw cards = value on lower left of your power card. + 1 card if leader grants bonus. Draw one less card for each -1 chit on your power. Add house card and any saved cards to make hand.

3. Diplomacy *(Limited Turn 1)*

Negotiation *(9.1)*
Secretly negotiate with other powers. In order, declare deals. Other side must confirm.

Only game state changing agreements are:
- Agree to end a war
- Form alliance if not a war for 1 turn
- If entering alliance, may loan naval squadrons or naval leader for 1 turn
- A captured leader may be returned
- May yield political control of spaces
- Give up to 2 random cards from hand - 1 way
- Give up to 4 mercenaries - 1 way
- Papacy may grant divorce to Henry
- Papacy may recind excommunication *(21.5)*

Sue for Peace *(Not on final turn) (9.3)*

a. Announce peace request

b. Award 1VP to winning side

c. Loser gives up control of all winner's home spaces under their control

d. Loser removes 2 of their units (land or naval)

e. Loser may regain Home Keys by giving

winner either 1VP or random card draw for each

f. Loser may regain captured leaders for either 1 VP or random card draw for each

g. Loser may regain non-key spaces, 2 spaces for every VP or card drawn given

h. Adjust diplomatic status display

Note: Hapsburgs/Papacy can't sue for peace with Protestants and vice versa

Ransom *(9.4)*
Player may regain any number of captured leaders. Kidnapper draws 1 card at random from player. Place leader in capital.

Excommunication *(9.5)*
Player may discard 1 random card draw to remove excommunication. CP value added to St. Peter's construction on Papacy board.

Declare War *(9.6)*

Declare war on a major power by spending CP cost on chart. War continues till peace is agreed to in a future Diplomacy phase.

Declare war on a minor power by spending 1 CP. Peace may not be made with minor powers.

- If a DOW is made on Scotland, France may spend 2 CP to intervene.
- If a DOW is made on Venice, Papacy may spend 2 CP to intervene.
- If a DOW is made on Scotland or Venice, and a power intervenes, place a Phony War marker on delcaring power. Remove once combat occurs between declaring power and target/major.

You cannot declare war on:
- Hungary-Bohemia
- Scotland if you are allied/just made peace with France or if you are Ottoman, Papacy, or Protestant
- Venice if you are England or you are allied/just made peace with Papacy
- a minor power that is allied to major power
- a power that is your ally
- the Protestant player until Schmalkaldic
- any other power if you are Protestant until the Schmalkaldic league is played
- independent key
- a power you just made peace with
- a power you just allied with

On first turn, only the English player holds negotiation with French and Hapsburgs in either order. English player declares deals with Hapsburgs, then declares deals with French.

4. Diet of Worms Phase *(Turn 1 only)*

a. Protestant, Hapsburgs, Papcy select 1 card to represent commitment. (May not be mandatory)

b. Reveal Cards

c. Roll Protestant Dice = CP value + 4. Results of 5 or 6 are hits.

d. Roll Papal and Hapsburg Dice = CP value. Results of 5 or 6 are hits. Add two results together.

e. Calculate Results. Side with more hits flips spaces adjacent to their spaces between Catholic/Protestant in German language zone. In event of tie, no action taken.

5. Spring Deployment *(10)*

a. Move a single formation from capital to a friendly-controled space.

- Hapsburgs can use either capital.
- Protestants can never spring deploy.
- Path can be any length as long as every space is friendly-controlled, not in unrest, and free of non-friendly units.
- Path may not go over passes
- No more than 5 land units may cross a single seazone.
- Cannot use a sea zone if any faction has naval units in adjacent port.

6. Action Phase *(11)*

- Play a card for CP value or the event
- Pass

Mandatory Event cards provide 2 CP after event triggers.

Cannot pass until played Home card and any mandatory events in hand; <= cards than ruler's administration rating.

7. Winter *(19)*

a. Remove loaned naval squadrons *(19.1)*
b. Remove Renegade Leader if in play *(19.2)*
c. Return naval units to nearest port *(19.3)*
d. Return leaders and units to fortified spaces (suffer attrition if no clear path) *(19.3)*
e. Remove major power alliances *(19.4)*
f. Add 1 regular unit to each capital *(19.5)*
g. Remove all piracy markers *(19.6)*
h. Flip debaters to uncommited side *(19.7)*
i. Resolve specific Mandatory Events *(19.8)*
- Limit of 4 units per fortification. Excess moved to capital.
- Land units path must be friendly-controlled and free of unrest. If no path exists, lose half rounded up.

8. New World *(20)*

Voyages of Exploration *(20.2)*

a. Randomly select explorer and place next to Exploration Underway chit.

b. Resolve exporation in order of best explorers. In case of tie, English, French Hapsburg.

c. Roll 2 dice. Modify result: + explorer value, +2 if Mercator's Map, -1 if uncharted. Consult chart.

Voyages of Conquest *(20.3)*

a. Replace Hapsburg "Conquest Underway" chit with random conquistador

b. Resolve Hapsburg, English, French

c. Roll 2 dice. Modify result: + conquistador value, +2 if Smallpox. Consult chart.

9. Victory Determination *(23)*

Military and Religions Victories immediately end game during Action phase. *(23.1)*
- No spaces for these can be in unrest.

a. **Total victory points and check** if meet conditions: *(23.3)*

Standard Victory: 25 VP

Domination Victory: In turn 4 or later, if 5 VP greater other any other power.

Time Limit Victory: At end of Turn 9, power with highest VP total.

Land Based Actions

Movement *(13)*

a. Declare Formation
b. Declare adjacent destination
c. Pay CPs
• Move in clear for 1 CP
• Over a pass for 2 CP
d. Play response cards
e. Conduct interceptions
f. Conduct avoid battle
g. Withdraw into Fortification
h. Fight field battle

Interception *(13.2)*

a. Declare Formation

b. Roll 2 dice

• + Battle rating from best leader
• Ottoman adds +1 if cavalry present
• Non-Ottomans -1 if cavalry present

Success on 9 or more

c. Place in destination

d. Repeat for adjacent formations

e. Fight field battle

You can not intercept:
• Enemy formations moving to avoid battle, intercept or retreat
• Over a pass
• If your Units/Leader previously tried to intercept this impulse
• If enemy units are moving to their friendly fortified space
• If the space is controlled by a power you are not at war or allied with

Avoid Battle *(13.3)*

a. **Declare attempts**

b. Designate destiniation space

c. Choose units
Does not have to be all and can exceed formation limit

d. Roll dice
• + Battle rating from best leader
• Ottoman adds +1 if cavalry present
• Non-Ottomans -1 if cavalry present

Success on 9 or more

e. Place in destination

f. Repeat for remaining powers

You may not avoid battle:
• Into an independent space or a space conrolled by a non-ally
• Into a space with unrest or enemy units
• Into a sea zone
• Into space enemy vacated
• Previously intercepted this move action
• If your leader is alone

Withdraw into Fortifications *(13.4)*

If space is fortified, owned by the power or their ally, and has 4 or fewer units.

Field Battle *(14)*

a. Play response cards

b. Attacker adds dice
• 1 for each unit
• + Battle rating of best leader

c. Defender adds dice
• 1 for being defender
• + 1 for each unit
• + Battle rating highest leader

d. Attacker declares combat cards

e. Defender declares combat cards

f. Roll Dice
Each 5 or 6 is a hit.

g. Play Janissaries

h. Declare winner
Side with most hits wins. In case of tie, defender wins.

i. Take casualties
Each side eliminates 1 unit for each hit scored. If both eliminated, side rolling more dice retains 1. Tie to defender.

j. Capture leaders
If a side is completely eliminated, capture opposing leader

k. Conduct retreats

l. Check for siege

Retreat *(14.1)*

If battle in fortified space owned by loser, up to 4 units may withdraw into fortifications.

Units may not retreat into a space in unrest, a sea zone, a space with non-allied units, or independent space.

Defender cannot retreat to space attacker came from. Attacker must retreat to space it came from.

Siege and Assault *(15)*

Powers attacking a fortification must first put it into siege.

On a seperate impulse they may assault if:
• Must have LOC to space
• Must have more naval squadrons than defender if present.

a. Declare formation

b. Play response cards

c. Add up attacker's dice
If no defending units
• 1 for each unit (cavalry ignored)
• + Battle rating of best leader

If defending units,
• 1 for each 2 units (cavalry ignored)
• + Battle rating of best leader

d. Add up defender's dice
• 1 for being defender
• 1 for each unit
• + Battle rating of best leader

e. Attacker declares combat cards

f. Defender declares combat cards

g. Roll dice
Each 5 or 6 is a hit.

h. Play response cards

i. Take casualties

Successful Assault
If attacker scored at least 1 hit and no defenders remain.

Unsuccessful Assault
If attacker has more units than defender, remain in siege. Otherwise retreat.

Relief Forces *(15.2)*

A formation of units friendly to fortifcation may initiate field battle to break siege
• Units belonging to power of relief force under siege may participate even if total exceeds formation size
• If relief force wins battle, besieger retreats
• If relief force loses, but has equal hits, may withdraw units/leaders into fortification if doesn't exceed 4 unit limit. Other units retreat.
• If relief force loses with less hits, only units originally in fortification may return. Other units retreat normally.

Breaking Siege *(15.3)*

A siege is broken immediately if besieger no longer has more units than fortification
• Units must retreat to adjacent space for free
• Units may not retreat into a space in unrest, a sea zone, a space with non-allied units, or independent space.

Foreign War *(21.7)*

Foreign wars force Ottoman or English players to divert land units and leaders off board
• Pull units from any location and put on card
• Receive 1 less card each turn war exists
• May recruit new units on card up to limit

a. Spend 1 CP to fight war

b. Fight field battle
Just like regular, but no defender, no retreat

If all enemy units eliminated, player receives 1 VP. Return all units to capital or other friendly home key if capital lost.

If enemy remains, must fight again on seperate impluse

Control Unfortified Space *(12.2)*

Spend 1 CP to gain political control if:
• Space is independent or controled by enemy
• Space is unfortified
• You have LOC
• You have units in or adjacent
• Space is not occupied by non-ally powers
If space is a port containing naval units, they must retreat.

Removing Unrest *(12.4)*

Spend 1 CP to remove unrest if any below:
• land units in space
• unrest is in Protestant Home Space before Schmalkaldic League
• land units are adjacent and no enemy power is adjacent

Land Unit Construction *(17.1)*

May construct in any friendly home space not occupied by enemy units.

Regulars: 2 CP
Mercenaries: 1 CP only non-Ottomans
Cavalry: 1 CP only Ottomans

Sea Based Actions

Naval Movement *(16.1)*

Move all naval units (including minor powers) 1 space for 1 CP

a. Declare Naval Moves

b. Execute naval move
- If arriving in port, place horizontal
- If sea zone with friendlies, orient same
- If sea zone with no friends, place vertical

c. Play response cards

d. Conduct interceptions
Vertically stacked units can be intercepted
- Enemies from adjacent spaces may intercept
- Only one power may intercept successfully
- Roll 2 dice + Battle rating highest leader. Succed on 9+. Place units vertically

e. Conduct avoid battle
Units in sea zones may attempt to avoid battle if all are horizontal and attackers vertical
- Roll 2 dice + Battle rating highest leader. Succed on 9+.
- Must move to sea zone free of any powers at war with or port they own

f. Rotate units
Reorient all vertical units horizontally

g. Conduct naval combat
- Navies not at war may co-occupy sea zone
- Only can enter port of enemy, not ally
- Cannot move if lost a combat in same impulse
- Genoa and Venice may not enter Atlantic

Naval Combat *(16.2)*

a. Attacker adds up dice
- +1 for each corsair
- +2 for each squadron
- + Battle rating from best leader

b. Defender adds up dice
- +1 for each corsair
- +2 for each squadron
- + Battle rating from best leader
- +1 if in a port

c. Attacker declares combat cards

d. Defender declares combat cards

e. Roll dice
Each 5 or 6 is a hit

f. Play response cards

g. Declare winner
Most hits wins. Tie goes to defender.

h. Take casualties
- For every 2 hits, remove a squadron
- If leftover hits, remove corsair.
- Odd hits on losing side destroy an extra unit
- If both sides eliminated, side rolling more hits saves 1 unit. If tied, defender saves.

i. One power retreats
- If battle in port, attacker retreats
- If battle in sea zone, defender retreats to adjacent sea zone or port

Naval Transport *(16.3)*

Up to 5 units plus leaders may move over naval units, for 1 CP per space or port
- Units can not be intercepted
- Must end action in a port free of enemy naval units and either ally or at war
- If power loses field battle in landing port, all units eliminated and leader is captured

Piracy *(16.4)*

a. Declare Piracy
Ottoman chooses a sea zone with corsair units and a major power's ports

b. Targeted player adds up dice
- + 2 per squadron in zone
- + 1 per squadron in port or adjacent zone
- + 1 per adjacent fortress of target player or by power at war with ottomans, provided it is not in unrest or under siege.

c. Roll dice against pirates
Each roll of 5 or 6 is a hit. Eliminate corsairs**.**

d. Ottoman adds up piracy dice
If corsairs remain in sea zone:
- 1 die if only 1 corsair or 1 port of target
- 2 dice otherwise

e. Roll piracy dice
Each roll of 5 or 6 hits. For each hit, target must evenly choose between:
- eliminate a naval squadron in or adjacent
- give random card from hand to Ottoman
- award Ottoman 1 VP for Piracy

Ottoman may not earn more than 10 VP

Build Naval Units *(17.2)*

May be constructed in any friendly home port not occupied by enemy units.
- Units lost by any method can not be rebuilt on same turn.

Squadrons: 2 CP non-Protestant powers

Corsairs: 1 CP only Ottomans. May be built in Algiers or Pirate havens.

New World Actions

Colonies (20.1) - Add colony marker to Crossing Atlantic box. May only be taken once per turn.

Exploration (20.2) - Place exploration underway chit. First time exploring, place on uncharted side. May be only taken once per turn.

Conquest (20.3) - England/France place conquest marker on crossing atlantic box. Hapsburgs place Conquest underway chit. May only be taken once per turn.

Special Major Power Rules

Ottomans *(21.1)*

Ottomans are the only power that can build cavalry/corsairs and take the piracy action

Barbary Pirates and Pirate Havens
Once *Barbary Pirates* played, add a square marker to Algiers and add 2 corsairs, 2 regulars, and Barbarossa. After this happens, *Pirate Havens* may be played to convert Oran and Tripoli to fortified Ottoman spaces. Only corsairs may be constructed in these spaces.

Hapsburgs *(21.2)*

Because of vast empire, Charles V was constantly traveling, represented by home card

Dual Capitals
In Winter, can return to either capital and adds a troop in each. Can only spring deploy from 1

England *(21.3)*

England rules revolve around Henry's heirs and their ability to make a DOW as an action.

Wives & Heirs
Game starts with Mary I born. Henry VIII will progress through new wives to get male heir. Starting turn 2, may play home card to advance track. When gets to new wife, roll on pregnancy chart. Keep track of number rolled, and increase in case of same number rolled.

Mary I
If Mary I becomes ruler while any English spaces are Protestant, new impulses:

a. Show Card

b. Mandatory Events Resolve Normally

c. Roll Die 1-3 goto Step d., 4-6 normal

d. Papal Actions
- 1 or 2 CP card: Papal executes Burn Books in English zone
- 3 CP card: Papal initiates debate in English
- 4+ CP card: Burn books and debate in English

England only gets CP from response or combat

France *(21.4)*

France's home card builds Chateaus for VP

Roll a die and modify results:
- + 2 if French control Milan
- +1 if French control Florence
- +2 if France controls 3 Keys in Italian Zone
- +1 in Tournement Scenario
- -1 if French home space controlled by power
- - 2 if enemy units in French home space

Consult chart on French power mat

Papacy *(21.5)*

The Papacy's special rules relate to the *Society of Jesus*, Excommunication, and building St. Peter's Basilica on the religious rules reference

Sack of Rome
Sack of Rome can be played if a single stack of non-Papal troops in the Italian zone has more mercenaries than # of Papal regulars in Rome

a. Place Full Stack in Rome

b. Resolve Field Batatle

c. Apply Hits

d. Return Troops

Papal Victory: Nothing happens

Papal Defeat: Reduce St. Peter's track by 5. Draw 2 cards from Papal hand. Discard 1 and keep other. Remove Sack of Rome from deck

Protestants *(21.6)*

Prior to *Schmalkaldic League*:
- No units can move or be built
- Other powers can not make DOW or move onto an electorate

Schmalkaldic League
Automatically triggered during Winter turn 4 if not played beforehand
- Add John Fredrick leader in Wittenberg
- Add Philip of Hesse leader in Mainz
- Convert Protestant home spaces under Protestant religious influence
- Restrictions from Prior are lifted
- Hapsburgs/Papacy and Protestants at war
- Place any units on electorate display on a Catholic space on nearest electorate under Protestant control

Religious Rules Reference

Map Spaces / Religous Influence *(2.3)*

All spaces on map (other than Ottoman home spaces) start as Catholic as shown by absence of control marker on a solid space or control marker on solid side.

Spaces under Protestant influence are shown by absence of control marker on Protestant home space or by a control marker with white in the center.

Language Zones *(2.5)*

Background of Map is color coded by five language zones: English, French, German, Italian, Spanish.

Reformers *(8.2)*

Reformers are chits placed on map, providing bonuses to the Protestant player.

- When first placed, convert city to Protestant
- Reformers may not move
- If temporarily removed, reenter next turn
- Not effected by presence of land units or changes in control of their space

Debaters *(8.2)*

Debater chits are not placed on the map. Debaters have a large value of their skill and occasionally a special ability. T:X shows turn available.

The uncommited side is the white side, and then commited side shows a picture.

- Protestant Debaters speak either English, French or German
- Papal Debaters speak any language
- If uncommited, can become commited to provide bonuses to several types of actions.

Land Units *(18.2)*

Protestant Land Units are:
- Protestant regulars and mercenaries
- English regluars and mercenaries if Edward VI or Elizabeth I rules England

Catholic Land Units are:
- Papal, French, or Hapsburg regulars and mercenaries
- English regulars if Mary I rules England
- Regulars of all Minor Powers
- Independent regulars and Knights of St. John

Unaligned Land Units are:
- Ottoman regulars and cavalry
- English regular and mercs if Henry VIII rules

Religious Actions *(18.1)*

Publishing a Treatise
Protestant pays 2 CP and makes 2 reformation attempts targeting a language zone.

If Cranmer is on map, English may take this action for 3 CP

Biblical Translations
Protestant pays 1 CP to advance translation one space in a language. Must complete New Testiment before starting Full Bible.

Calling Theological Debates
Protestant or Papacy can spend 3 CP to call a debate in a language zone. Less predictable way to convert influence, but can earn VP and flip spaces with low religious modifier.

Building Saint Peter's
Papacy can spend 1 CP to move St. Peter's marker one space.
Papacy can never earn more than 5 VP from construction.

Burning Books
Papacy pays 2 CP and makes 2 counter-reformation attempts targeting a language zone.

Founding a Jesuit University
After Society of Jesus is played, Papacy can spend 3 CP to build universities. Cost is reduced to 2 CP if Loyola is commited for the action.

Universities provide strong modifiers to Papacy religous actions.

Reformation Attempts *(18.3)*

a. Pick target space - for each attempt, pick a space that is Catholic and either contains a reformer, adjacent to Protestant religious space, or a port in same sea zone as Protestant space's port. Can be targeted only once per impulse.

b. Add up Reformer dice
- +1 for each adjacent Protestant space
- +1 for each adjacent Reformer
- +1 for each adjacent stack of Protestant units
- +2 if Reformer in space
- +2 if Protestant units in space

c. Add bonus dice
- +1 if Printing Press,
- +1 if Luther's 95 Theses,
- +1 if applicable Debater bonus

d. Roll dice
Remember highest die value
- +1 to value if Calvin's Institutes or
- +1 to value if Full Bible Translation and in target language zone.

e. Automatic success
If 6 or higher and in target language zone do not roll for Papacy

f. Add up Papacy dice
- +1 for each adjacent Catholic space
- +1 for each adjacent Jesuit University,
- +1 for each adjacent stack of Catholic Units
- +2 if in space of Jesuit University,
- +2 if in space with stack of Catholic land units

Papacy rolls minumum of 1 die.

g. Roll Papal dice
Remember highest value

h. Determine result
Highest die value wins. Protestant wins ties in target language zone, Papacy everywhere else. If Protestant wins, flip space. If electorate flipped for the first time, place units from electorate display. If Papacy wins, in German zone and Carlstadt debater bonus used, place unrest.

Counter Reformation Attempts *(18.4)*

a. Pick target space - for each attempt, pick a space that is Protestant and either contains a Jesuit University, adjacent to Catholic space, or a port in same sea zone as Catholic space's port. Can be targeted only once per impulse.

b. Add up Reformer dice
- +1 for each adjacent Catholic space
- +1 for each adjacent Jesuit University
- +1 for each adjacent stack of Catholic units
- +2 if Jesuit University in space
- +2 if Catholic units in space

c. Add bonus dice
- +1 or +2 if applicable Debater bonus

d. Roll dice
Remember highest die value
- -1 to value if Augsburg Confession

e. Automatic success
If 6 or higher, in target language zone, and Paul III/Julius III is ruler do not roll for Protestant

f. Add up Protestant dice
- +1 for each adjacent Protestant space
- +1 for each adjacent Reformer,
- +1 for each adjacent stack of Protestant Units
- +2 if in space of Reformer,
- +2 if in space with Protestant land units

Protestant rolls minumum of 1 die.

g. Roll Papal dice
Remember highest value

h. Determine result
Highest die value wins. Papacy wins ties in target language zone, and Paul III/Julius III is ruler. If Papacy wins, flip space.

i. Award CP
Award 1 CP towards St. Peter's if Tetzel's debater bonus used.

Debates *(18.5)*

a. Specify language zone

b. Choose the attacker
Randomly pick uncommited debater. Protestant selects from debaters in language zone, Papacy uses any.

c. Choose the defender
Attacker chooses either random commited debater or random uncommited debater, from proper language zones.

d. Attacker rolls dice
Dice = Debater value + 3. 5s and 6s are hits.

e. Defender rolls dice
Dice = Debate value + 1 if commited, + 2 if uncommited. 5s and 6s are hits.

f. Flip Debaters to commited side

g. Compare dice

If equal, start second round of debates with new Debaters. If second round equal, nothing happens. If one side has more hits than other, flip # of spaces of the difference.

If Papal player wins debate by more than debate value of Protestant, burn at Debater at stake. Gain bonus VP equal to debate value. If the Debater was a Reformer, remove chit from map.

If Protestant player wins debate by more than debate value of Papacy, disgrace Debater. Gain VP equal to debate value.

Excommunication *(21.5)*

Papal home card can be played to excommunicate a Reformer or a Ruler.

Ruler - Must be: at war with Papacy, ally of Ottomans, or Henry VIII if one English home space is Protestant. Player received -1 card chit and two Catholic spaces they control receive unrest markers. May be removed in diplomacy.

Reformer - remove Debater and Reformer chit from map for turn. Papacy may then initiate debate in same language zone. If Luther removed, can still join debate with Home Card.
